

Engine Remapping

Last Updated Tuesday, 05 August 2008

Engine Remapping available in September

B4BMW team up with Celtic Tuning to offer engine remapping North of the border. B4BMW is the sole agent for Celtic Tuning re-maps.

B for BMW has invested in the latest remapping equipment and can carry out this procedure at our workshop in Clydebank.

OBD Performance Remap Specialists - For all your tuning needs

We use the very latest in engine tuning technology allowing us to provide huge power gains for both petrol and diesel engines.

Our CUSTOM remaps will provide you with the best tuning solution available. They are designed to suit all your needs whilst maintaining a

competitive price.

We at Celtic Tuning have years of experience in all levels of tuning from Mechanical to Electronic. We specialise in the custom remapping

and chip tuning of ECU's to provide you with the very best results from your vehicle without jeopardising reliability! We are one of the UK's leading mobile remap companies and can cater for any need be it:

- Track days, Fast road, Towing, Off road & 4x4
- Improved drivability for everyday use
- Increased fuel economy for commercial companies

We have the knowledge and skills in house to be able to chip the older vehicles that are not able to be remapped via OBD and also the very

latest equipment in order to remap the latest generation of EDC16 ECU's fitted to most VW and Audi.

We also provide full custom turbo conversions, Intercooler conversions along with full suspension and brake upgrades.

Whatever your needs

are we are sure we can accommodate them at sensible prices.
