

Accurate diagnostic and professional service

'Absolutely delighted, I had taken it to 2 other BMW specialists spending over £300. I took it to B for BMW in Glasgow and had an accurate diagnosis same day. Work was planned for the following week and received the car back the same day as promised. It is a different car and what I expect from a 320ci. I had no apprehensions using this company as I got to know them when I had my Audi TT worked on (A for Audi). A really professional organization with integrity which is very hard find'

Cheers,

- Brian
