

Remapping my BMW 530D E60 in Glasgow

Was thinking about remapping my BMW 530D E60 for a long time but after talking to numerous other garages still had a lot of unanswered questions. After talking to the guys at B4BMW all my questions were answered. They talked me through the procedures step by step and I was totally happy to go ahead. My car is amazing I have increased power in all gears and as an added bonus seem to be getting between 4 and 6 miles more to the gallon. Would'nt hesitate to recommend you. Cheers.
